

ECO 185-200 TOW-BEHIND SYSTEM

The ECO 185-200 features a powerful 185 cfm, twin-screw diesel compressor, ECO-Aire® Maxx air dryer, our brand new ECO-200 wet/dry combo blaster with 50' of blast hose and nozzle included, all mounted on a sturdy trailer with bi-fold ramp for max portability.

Features include:

- Wet/dry combo = go from dry blasting to wet aka 'dustless' blasting with the flick of a switch!
- Lightweight & easily transportable
- Rugged enough for larger commercial or industrial projects, yet delicate enough for gentle cleaning & restoration
- Bi-fold ramp provides the flexibility of blasting with the ECO-200 on or off the trailer
- Free hands-on demo available!
