

# CLEARBLAST® CB450

Powerful performance, a compact platform & onsite mobility now coexist! The ClearBlast CB450 is the abrasive blasting solution for applications that require extended run-times while maintaining peak performance. Increased 1-1/2" air piping gives optimal flow capability, taking advantage of air supplies of 600 cfm+. This beast includes our signature ClearBlast user-friendly pneumatic operating system and floating bung seal to automate setup & reload processes.

Designed to perform in the most demanding commercial & industrial environments, its safer and easier to use, even for an amateur. Quick removal rates while being impressively efficient with abrasive & water comes standard. Blast an array of abrasives, sized 20 mesh to 100 mesh. The CB450 sports a 4.5 cu ft pressure vessel, providing 2-4 hours of continuous maximum performance blasting between reloads.

Blast faster, longer and safer with the CB450!

**INDUSTRIAL YET  
COMPACT & PORTABLE!**  
48"H x 30"W x 49"L

350 lb Blast Pot for Hours  
of Continuous Blasting

Powder Coated  
Vessel

User-Friendly Controls

Screened Funnel For  
Quicker Loading

Removable Access  
Panels

4-Point Lifting

Dosing Pump For  
Rust Inhibitor  
(OPTIONAL)

Large 1-1/2" Piping,  
Increasing Air Flow for  
Industrial Performance  
Blasting
